Solutions to Grow Capacity

State of MD

- Invest in expanding community treatment (ACT, telehealth to address workforce shortages)
- Clearer pathways/accountability for providers to adequately panel with commercial carriers
- Incentive strategies to create comprehensive systems of care (CCBHC/prospective \$)

Community
Providers

- Quality strategy to implement value based care, readmission management
- Further partner with hospitals and health systems
- Accountability for commercial carriers on credentialing

- Fostering TA, dialogue, and learning (data warehouse, communities of learning)
- Building bridges with hospitals and healthcare systems
- Advocacy on state change goals
